

Isn't it time you “uncorked”  
the possibilities right here at home?

Who says you have to drive for miles to get more  
selection, or better services, or lower prices?

There's an abundance of variety and quality right here in our own community, and it's waiting to be re-discovered. Plus, you won't have to spend extra time in your car, or extra money on gas and parking. Not only that, your dollars spent locally contribute to local salaries, local public services, economic diversity, and the overall vibrancy of our community. Paw Paw may be a familiar flavor, but it's a good one.
