Hydrant Flush for the Village of Paw Paw

We will be performing our fall fire hydrant flush the week of September 30th, 2024, we have these separated into 4 zones.

Monday, September 30th, **Zone 1**. This zone is the area from Michigan Ave. to Ampey Road and South Gremps to South Kalamazoo, this also includes the area around Lake Blvd.

Tuesday, October 1st, **Zone 2**. This zone is everything North of Michigan Ave. from N. Gremps to Marcelletti Ave.

Wednesday October 2nd, **Zone 3**. This zone goes up Johnson Road to Michigan Ave. and covers the area North of Michigan Ave. from Charles Street to Hazen Street, this will end at the county drive just off Hazen Street.

Thursday October 3rd, **Zone 4**. This zone covers everything south of Michigan Ave. from S. Kalamazoo to State Street. This also includes everything South of I-94.

This is a tentative schedule for flushing, we believe that this will be completed in 4 days but may run into additional days if extra time is required.

While we are flushing the hydrants you may experience cloudy water.
